Dear Neighbor,

The redistricting process continues, after the Ohio Supreme Court struck down both the state legislative and Congressional maps as unconstitutional in mid-January. The Court gave the Ohio Redistricting Commission 10 days to redraw the state legislative maps, and Republican commissioners adopted another set of partisan, four-year state maps on Jan. 22 without any Democratic support. The new state maps are now under review by the Court after voter rights advocates challenged the new maps as unconstitutional once again.

Our democracy should work for and include all of us. But a handful of Redistricting Commission members blatantly ignored what Ohio voters told us they wanted, not once, but twice. Democrats believe this disregard for Ohioans will be remedied again by the Court, and the people will have the fair, constitutional maps they deserve.

In response to the uncertainty caused by the unconstitutional state legislative and Congressional maps, House Bill (HB) 93 was recently signed into law, which makes several changes to the filing requirements for the upcoming primary election.

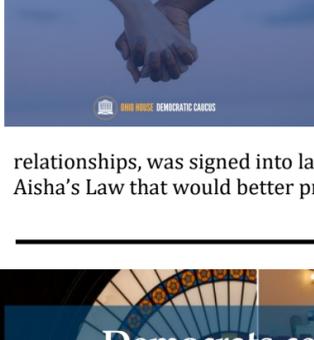

The emergency legislative changes enacted will help alleviate some concerns about administrative deadlines and paperwork requirements, but these measures fall far short of what's needed to prevent chaos and confusion for election officials and candidates. This could have been avoided entirely had Republican commissioners passed fair, constitutional maps the first time.

Ohio House Democrats are still fighting to ensure fair maps and elections for the people of Ohio, who deserve to choose who represents them, not the other way around.

Please do not hesitate to contact my office with any questions, comments or concerns.

Sincerely,

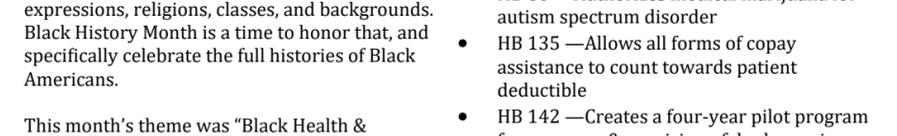

Catherine D. Ingram

## Teen Dating Violence Awareness Month

February is National Teen Dating Violence Awareness and Prevention Month. Teen dating violence is an issue that impacts everyone – not just teens – but parents, teachers, friends and communities as well. This month, Ohio House Democrats are raising awareness about teen dating violence and promoting safe, healthy relationships.

In 2018, HB 1, Democratic legislation to expand domestic violence protection orders to those in a dating or intimate relationships, was signed into law. Democrats continue to support legislation such as Aisha's Law that would better protect survivors of domestic and dating violence.

Happy Black History Month! Ohio Democrats are here to fight for equity and justice amongst people of all races, ethnicities, sexualities, gender expressions, religions, classes, and backgrounds. Black History Month is a time to honor that, and specifically celebrate the full histories of Black Americans.

Jan. 22 marked the 49th anniversary of the historic Roe v. Wade Supreme Court decision, which legalized abortion throughout the United States.

49 years later, however, the right for people to choose the reproductive healthcare decisions that are right for them is still under attack. Currently, the Supreme Court is reviewing multiple cases that could [potentially overturn the landmark abortion rights case](#).

The nationwide attack on reproductive rights is present even in Ohio, where in December 2021, Gov. DeWine signed into law Senate Bill (SB) 157, which puts Ohioans in danger by preventing doctors and patients from making appropriate and life-saving medical decisions if faced with a medical crisis during pregnancy. The legislation also contained provisions directly targeted to close abortion clinics in Southwest Ohio. Additionally, Republican state lawmakers have also

introduced legislation to [completely ban abortion in Ohio](#).

Ohio House Democrats are working to ensure Ohioans have access to the full range of quality, affordable healthcare they deserve.
