

A LEGISLATIVE UPDATE FROM STATE REP. MICHELE GRIM

MARCH 2026

Michele Grim is a strong voice for northwest Ohio, representing the 43rd District (encompassing part of Lucas County) in the Ohio House.

Dear Neighbor,

As Women's History Month comes to a close, I reflect on the immense legacy of female leaders in our state and community.

We can and should be doing more to honor the historical impact women have had across the state. Ohio's strength is in its people, and that most certainly includes the women who have been leading, advocating, and organizing during its storied history. Designating a month to honoring this will be one step to fostering more growth for all women going forward.

I am working to officially designate March as Women's History Month in Ohio, through my bill, **House Bill 244**. Officially designating March as Women's History Month is an opportunity to acknowledge the accomplishments and efforts of women from the variety of diverse communities that make Ohio one of a kind. Women from the foothills of Appalachia to the shores of Lake Erie, and everywhere in between have come to define the hardworking, compassionate, and strong-willed communities of our state.

Michele

District Spotlight

I was pleased to visit the University of Toledo to drop off resolutions to our MAC Championship teams: Women's Cross Country, Women's Volleyball, and Men's Cross Country.

Statehouse Activity

Earlier this month, I was honored to provide sponsor testimony for the Keith G. Earley Interchange Designation.
(HB 334)

Keith G. Earley served as the Lucas County Engineer from 2000-2019. I am grateful for the opportunity to honor his legacy and to commemorate the work he put into bettering his community.

This month I had the privilege to serve on a panel with the tireless advocates of Moms Demand Action for Gun Sense in America to promote gun violence prevention.

My Extreme Risk Protection Order "red flag" bill **(HB 46)** and the Keeping Survivors Safe Act **(HB 354)** are about one thing: the prevention of violence before it happens and the protection of those most at risk.
