

A LEGISLATIVE UPDATE FROM STATE REP. MICHELE GRIM

MAY 2026

Michele Grim is a strong voice for northwest Ohio, representing the 43rd District (encompassing part of Lucas County) in the Ohio House.

Dear Neighbor,

As your State Representative I am honored every day to represent a community of hardworking, dedicated individuals who go above and beyond the call of duty.

During May we recognize teachers and nurses in our communities, taking the chance to honor their hard work. Every Ohioan deserves to be treated with dignity in the workplace. I am immensely thankful to those who pursue public service or provide an immense public good. I am grateful for every member of the community that works to bring a positive impact, ensuring that families are healthy, educated, and safe.

Ohio would not be the great state it is without the sacrifice and contributions of laborers. As your legislator, I will continue to fight and advocate for workers across all sectors.

Michele

Statehouse Activity

Earlier this month I was excited to welcome 7th and 8th graders from Longfellow Elementary to the People's House! Our students are the future, and it's always inspiring to see young people engaged, curious, and learning more about how government works.

This May I had the opportunity to speak at Cancer Action Day, with American Cancer Society. When patients, survivors, caregivers, and advocates raise their voices, we can build a healthier and more compassionate Ohio for everyone.

District Spotlight

This month I joined nurses at UTMC to do some sand art!

During Nurses Appreciation Week, we celebrate the skill, compassion, and relentless commitment of the people who keep our communities healthy and strong.

Thanks to the Toledo Lucas County Public Library team for the tour of the under-construction Washington Branch this month.

It's going to be a beautiful library and an outstanding resource for our community!

I was honored to meet with the UToledo Law in Medicine Club to discuss the intersection of healthcare, law, and public policy.

As a proud public health alumna of The University of Toledo, it was meaningful to speak with future physicians about efforts to eliminate medical debt, protect patients, and advance policies that make healthcare more accessible and affordable for Ohio families.
