MAY EDITION

Dear Friends and Neighbors,

I voted NO on the State of Ohio operating budget, House Bill 96, because it recklessly and arbitrarily slashes critical state funding while doing little to help everyday Ohioans. Instead of delivering meaningful support to our communities, House Republicans chose to dismantle the bipartisan, constitutionally-backed Fair School Funding Plan, expand taxpayer-funded vouchers for private and charter schools that mainly benefit the wealthiest Ohioans, and hand out \$600 million to billionaires for a new Browns stadium outside of Cleveland—despite opposition from local leaders. We can't lose sight of what's really happening. Culture war distractions are being used to hide the truth: public schools, libraries, and childcare programs are being gutted. I need Ohioans to stand with us as we head into Senate hearings—this fight is far from over.

Here's how we are making an impact:

- **Daylight Savings**
Cosponsored a resolution to make daylight savings permanent.
- **NASA**
Signed resolution in support of bringing NASA's headquarters to Ohio
- **Surviving Military Spouses**
Cosponsored a bill giving surviving military spouses homestead exemption
