

March 27, 2020

Dear Members of the Ohio House of Representatives,

Thank you for your leadership during this unprecedented crisis. On behalf of the undersigned organizations and individuals, we urge you to call for unity in our communities and to publicly speak out against the increase in [racist attacks and discrimination](#) against the Chinese and Asian/Asian American/Pacific Islander (AAPI) community in the wake of the global coronavirus pandemic.

Across the country we have witnessed countless incidents of violence, verbal abuse, profiling, and discrimination targeting Chinese and AAPI communities in connection to COVID-19. For months, locally owned restaurants, salons, and stores in neighborhoods like Cleveland's historic AsiaTown have seen a steep drop in customers and suffered financial hardship since fear and stigma related to the outbreak first began spreading. Working-class AAPIs in retail and hospitality have faced workplace discrimination on top of reduced hours and income loss. In San Fernando, CA, a 16-year old Asian American boy was hospitalized after being physically attacked because he was accused of having the coronavirus. In Plymouth, IN, two Hmong American men were denied service at hotels under the false assumption that they were carrying the coronavirus. In Midland, TX, a Burmese American man and his young son were both stabbed in a racially motivated attack. These incidents are happening here in Ohio as well, where children have been bullied and told that they should be quarantined solely because of their Chinese heritage.

**We are concerned that the overwhelming silence from the majority of public officials in Ohio regarding these hateful acts sends a message of ambivalence.** We ask you to speak out in order to curb this violence and display solidarity with immigrant and refugee communities impacted by the recent rise in COVID-19 related racism. At least 350,000 of our fellow Ohioans have Chinese, Asian, or Pacific Islander heritage. History has shown us that when politicians use stigmatizing rhetoric that effectively scapegoats communities of color, they fuel mass hysteria that leads to harm and violence against vulnerable children, families, and entire communities. Throughout U.S. history, AAPIs have been unfairly targeted due to mass hysteria, from the racist "[yellow peril](#)" ideology that targeted Chinese and Asian immigrants as an existential threat in the late 1800s, to the incarceration of 120,000 Japanese Americans during WWII, to the murder of Vincent Chin in 1982, to the anti-Muslim bigotry and violence impacting South Asian and Arab Americans today. Continuing to stay silent allows racist rhetoric and violence to spread unchecked, making our communities less safe and undermining our collective efforts to address the rapidly evolving crisis which threatens us all.

As all Ohioans have now experienced increasing levels of anxiety, fear, and uncertainty about their safety and economic stability, we need to hear from public officials about the need to unite and face this crisis together, rather than allow fear and stereotypes to divide us. We need our

leaders to reflect on their role, acknowledge how implicit bias impacts the essential work of public health, and be thoughtful in their words and actions. We need leadership grounded in truth and committed to openly opposing racism in any form.

**We urge you to partner closely with Ohio AAPI community leaders to take tangible steps to fight against COVID-19 related racism:**

- 1) **Release a public statement against anti-Asian and anti-Chinese stigma;**
- 2) **Pass a resolution denouncing racism and discrimination;**
- 3) **Commit to regular outreach, virtual town halls, and consultation with AAPI community organizations to engage in authentic relationships with impacted communities;**
- 4) **Disseminate public education and digital messaging that combats racism against people of Chinese, Asian, and Pacific Islander descent;**
- 5) **Pass emergency legislation to fund and establish the [Ohio AAPI Affairs Commission](#).**

We ask that you act quickly to mitigate the effects of racialized stigma and violence rooted in fear and misinformation, and to bring a credible voice to the real threats to the long-term health and wellbeing of Chinese and AAPI communities in Ohio and across the U.S.

We believe the instances of discrimination and physical/verbal attacks across the country are likely to grow and worsen in the coming days and weeks. Ohio has already been a step ahead of other states in its response to COVID-19 and we believe it should be a step ahead in addressing COVID-19 related racism as well. We stand ready to do our part in fighting against racism while supporting the needs of our communities.

Thank you again for your time, consideration, and for your efforts to protect all Ohioans during this crisis.

Sincerely,
